

DATA SCIENCE

Lab 3 - Student Questions

Full Name:

Using the data from the Valenbici station (located in Guillem de Castro), answer the following questions:

1. What is the day of the week with the least bikes available (in average)?
2. What are the dates with the least and the most bikes available (in average)?
3. What is the month with the least bikes available (in average)?
4. Does the use of the station change in summer? Consider that summer is the period from July to September (both months included)
5. Do the Fallas affect the use of the station? Fallas take place in Valencia from 15 to 19 March.
